

We Need You!

Clinton County is conducting our 5 year Hazard Mitigation Plan Update for FEMA and the State of Iowa.

This plan is important in allowing our communities and entities throughout Clinton County to apply for FEMA funds.

We need our citizens to tell us about the hazards that you see where you live and work.

What is Hazard Mitigation?

The purpose of hazard mitigation is to reduce or eliminate long-term risk to people and property from hazards. Clinton County and participating jurisdictions developed this multi-jurisdictional local hazard mitigation plan update to reduce future losses to the County and its communities as a result of hazard events.

What can you do to help?

Please help us by filling out this survey. This will help us gather the data needed to update our plan:
